

DECOUPAGE COASTERS KIT

Watch the tutorial on
the Ampersand Crafts channel

THIS KIT INCLUDES

Wooden hexagons x4
Decoupage paper*
Mod Podge
(sealer, glue & finish all-in-one)
Brush
* Designs and colours may vary

YOU WILL NEED

Paper towels

1 SET UP

Protect your work surface. Tear small pieces of your decoupage paper, varying the sizes and shapes.

2 APPLY MOD PODGE

Apply a thin, thorough coat of Mod Podge directly to the inner hexagon, taking care to apply into every corner. Whilst the Mod Podge is wet, arrange the torn pieces of decoupage paper in varying patterns, shapes and sizes on a small area of the inner hexagon (about 3cm x 3cm.)

3 COVER HEXAGON

Carefully cover the pieces of decoupage paper that you have arranged with a thin layer of Mod Podge. Continue overlapping the decoupage paper and sticking it down, until the inner hexagon is completely covered. Wipe the edges of the hexagon with a paper towel to remove any excess Mod Podge.

4 REPEAT

Repeat Steps 2 and 3 with the remaining wooden hexagons. Allow to dry for 1 - 2 hours.

5 FINISHING TOUCHES

Apply two more coats of Mod Podge and allow 1 - 2 hours to dry between coats.

6 24 HOURS

Leave your coasters to dry completely for 24 hours. Step back and admire your creation!

IDEAS

- Give as party favours.
- Group together to form a table centrepiece.
- Create wall art by attaching picture hanging hardware to your coasters.
- Personalise your coasters to use as name place settings on a table.
- Paint any exposed wood to coordinate your coasters with the colour scheme of your room or event.
- Freehand, stamp or stencil a sentiment or design onto your decorated coasters.
