

RAG WREATH KIT

Watch the tutorial on
the Ampersand Crafts channel

THIS KIT INCLUDES

Wire wreath frame
Fabric*

* Designs and colours may vary

YOU WILL NEED

Scissors
Ruler
Pencil

1 CUT FABRIC

Lay a piece of fabric onto your work surface. Trim off the selvedge (a white border with the fabric name) if the piece of fabric has one. Cut the piece of fabric into strips measuring 20cm long by 4cm wide. Repeat with all of the pieces of fabric until you have about 100 strips. You do not need to be too precise as minor variations in strip size still look beautiful.

2 TIE INTO KNOT

Separate the strips of fabric into piles of each pattern. Thread a strip of fabric through the inner ring of the wire wreath frame until half of the strip is to the left of the ring and the other half is to the right. Tie the strip into a tight single knot to attach it to the frame.

3 COVER FRAME

Repeat Step 2 using varying colours of fabric until the inner ring of the wire wreath frame is covered in fabric strips.

4 SLIDE STRIPS & FILL

Slide the strips together to make room on the wreath frame for as many strips as possible. Continue to add strips to the frame until it is full.

5 FINISHING TOUCHES

Make sure the two ends of each strip are in front of the outer ring by turning the wire wreath frame over and pushing any strips of material through from the back. Fluff the fabric up to give the wreath as much volume as possible and arrange the strips so that the patterns are visible.

6 HANG WREATH

Hang your wreath onto a hook using the outer ring of the wreath frame. Step back and admire your creation!

IDEAS

- Wrap fabric-safe battery powered LED lights around your wreath.
- Use your wreath to enhance your door or room, or include it in your event decorations.
- Add bows or ribbons to your wreath to coordinate it with the colour scheme of your room or event.
- Tie a piece of ribbon around the top of the outer ring of the wreath frame and use this to hang your wreath.
